

PAULO CASSIM

EHS & Radiation Protection Specialist | Consultant

Ribeirao Preto, Sao Paulo, Brazil | (+55 16) 99788-8750 | pcassim@gmail.com

linkedin.com/in/pcassim

PROFESSIONAL OBJECTIVE

To provide expert consulting services in occupational safety, industrial environmental management, and nuclear radiation protection — helping organizations achieve regulatory compliance, reduce risk, and build a stronger EHS culture.

PROFESSIONAL PROFILE

- ▶ Certified Licensed Trainer for Managing Safety Performance Tools for Supervisors and Managers — credentialed by BALMERT CONSULTING.
- ▶ Over 28 years of experience at large pulp and paper multinationals, leading the development, implementation, and management of comprehensive EHS/HSE programs.
- ▶ Deep expertise in EHS auditing, risk assessment and mitigation, regulatory compliance program design, and action plan development — spanning both Brazilian and U.S. legislation.
- ▶ Official Radiation Protection Supervisor (legally responsible party) under CNEN/ANSN (Brazilian Nuclear and Radiation Safety Authority), with hands-on experience managing facilities operating nuclear gauges.
- ▶ Proven track record managing environmental interface with government agencies (CETESB, ANA, IBAMA, DAEE, Health Surveillance, Fire Department), including EHS audit leadership at U.S. industrial facilities.
- ▶ Strong leadership in people management: directing multidisciplinary teams, developing communication plans, delivering training programs, and fostering safety culture from the shop floor to senior management.
- ▶ Available for travel within Brazil and internationally.

PROFESSIONAL EXPERIENCE

Jul 2025 – Present **Exato Soluções Ocupacionais e Ambientais Ltda**

Consultant — Occupational Safety, Industrial Environmental Management & Radiation Protection

- ▶ Radiation Protection: Develop and implement radiation protection programs and technical reports in full compliance with CNEN/ANSN regulations. Hold technical and legal responsibility for facilities operating nuclear gauges, ensuring adherence to all regulatory and safety standards related to ionizing radiation.
- ▶ Occupational Safety: Author and review critical safety procedures — including lockout/tagout (LOTO), confined space entry, and work-at-heights — and specify appropriate PPE. Lead accident investigations (including fatality cases), conduct compliance audits against Brazilian and U.S. legislation, and deliver expert technical assessments for mergers and acquisitions.
- ▶ Industrial Environmental Management: Prepare technical environmental reports, analyze chemical data, and coordinate with public environmental agencies. Develop and review procedures for water quality monitoring, solid waste management (PNRS/SIGOR), and waste receiver assessments. Conduct environmental due diligence for M&A and represent clients in water resource committees and payment-for-environmental-services (PES) programs.
- ▶ Training & Capacity Building: Design and deliver customized EHS training programs for technical staff and leadership teams, reinforcing safety culture, regulatory compliance, and an integrated EHS approach focused on practical, results-oriented outcomes.

Sep 2021 – Apr 2025 **Sylvamo do Brasil**

Corporate Health, Safety & Environment Specialist

- ▶ Drove continuous improvement initiatives for pollution control, environmental impact reduction, and risk management, bringing market innovations into the organization's EHS framework.
- ▶ Managed legal and regulatory compliance across EHS disciplines, coordinating the interface with government agencies including CETESB, ANA, Environmental Police, and the Fire Department.

- ▶ Defined, implemented, and maintained corporate EHS procedures and policies, integrating Brazilian site standards with Sylvamo's global standards; participated in global alignment meetings.
- ▶ Spearheaded Safety Leadership programs and reinforced EHS culture among managers and frontline teams; conducted global audits to assess industrial plant performance.
- ▶ Coordinated technical projects to remediate and mitigate environmental liabilities, collaborating with FM Global insurance on risk identification and corrective actions.
- ▶ Served as coordinator of the Environment Committee at ABTCP (Brazilian Pulp and Paper Technical Association) and as FIESP's representative on the CBH-Grande (Grande River Basin Committee).

Key Achievement: Implemented safety improvements and process optimizations that significantly reduced incidents, penalties, and fines. As FIESP's representative on the Grande River Federal Basin Committee, contributed to strategic negotiations that generated approximately R\$ 2MM/year in savings for Sylvamo.

Apr 2011 – Aug 2021 **International Paper do Brasil**

Corporate Health, Safety & Environment Specialist

- ▶ Credentialed as a Certified Licensed Trainer for Managing Safety Performance Tools (BALMERT CONSULTING), delivering more than 12 training classes across pulp, paper, and packaging industries.
- ▶ Held legal responsibility as Corporate Radiation Protection Supervisor for all mills; provided direct compliance support on safety and environmental requirements to regulatory agencies (ANA, DAEE, IBAMA, CETESB, Health Surveillance, DRT, SST).
- ▶ Developed operating procedures and regulations to standardize HSE practices; monitored performance indicators and disseminated best practices across 10 industrial plants.
- ▶ Coordinated ABTCP's Environment Committee, promoting sustainability practices in the sector; collaborated with FM Global insurance to mitigate operational risks.
- ▶ Provided EHS strategic support during business acquisitions and separations, ensuring seamless integration of EHS standards and compliance with OSHA and Brazilian regulations, including COVID-19 protocols.

Key Achievement: Directly reduced HSE incidents through preventive practices and procedural standardization. Led EHS integration during major corporate transactions, ensuring compliance continuity across all facilities.

Oct 2008 – Apr 2011 **International Paper do Brasil**

HSE & Industrial Radiation Protection Manager — Luiz Antônio Plant

- ▶ Managed the full HSE team at an integrated pulp and paper unit, directly supervising 27 employees including safety technicians, nursing technicians, firefighters, environmental technicians, a nurse, and an occupational physician.
- ▶ Planned and executed safety, health, and environmental programs; coordinated training for the HSE team and conducted regulatory compliance audits.
- ▶ Ensured continuous monitoring of workplace risks, occupational health services, and execution of safety plans.

Key Achievement: Achieved a record 8 consecutive months without a personnel injury at the plant. Eliminated all outstanding legal compliance deviations.

Feb 2007 – Sep 2008 **International Paper do Brasil**

Environmental Consultant

- ▶ Contributed to the establishment of HSE guidelines and ensured compliance with applicable environmental and regulatory standards.
- ▶ Led the implementation of the ISO 14001 Environmental Management System, coordinating all phases from planning through certification, internal audits, communication planning, and document control.
- ▶ Developed environmental compliance reports and risk assessments; investigated incidents; implemented corrective and preventive actions; organized emergency response training and drills.

Key Achievement: Achieved ISO 14001 certification at the Mogi Guaçu and Três Lagoas units, and OHSAS 18001 certification at the Três Lagoas and Florestal units.

May 1998 – Jan 2007 **Votorantim Celulose e Papel**

Environmental Consultant

- ▶ Worked within the HSE group at Votorantim Participações, supporting EHS guidelines and environmental/regulatory compliance across group business units (pulp, cement, metals, and chemicals).
- ▶ Coordinated the Environmental Management System and led ISO 14001 implementation from planning through certification, managing audits, communication, and documentation.
- ▶ Prepared environmental legislation reports, conducted risk assessments, investigated accidents and incidents, implemented corrective and preventive actions, and supported emergency response drills.

Key Achievement: Led initiatives that generated approximately R\$ 1MM/year in savings through loss reduction and production process optimization. Managed the full environmental licensing process for the unit and structured standardized operating procedures to improve efficiency.

Feb 1997 – Mar 1998 **CETESB — Environmental Company of the State of São Paulo**

Intern

- ▶ Supported environmental inspections of industrial facilities, conducting field visits, collecting and analyzing environmental impact data, verifying compliance with applicable legislation, and preparing inspection reports.

ACADEMIC BACKGROUND

2004 Postgraduate Degree in Occupational Safety Engineering

Moura Lacerda University Center · Ribeirao Preto, SP

2002 Postgraduate Diploma in Environmental Management

State University of Campinas (UNICAMP) · Campinas, SP

2002 Postgraduate Course in Pulp and Paper Manufacturing Technology

Federal University of Viçosa (UFV) · Viçosa, MG

1998 Bachelor of Science in Production Engineering

Federal University of São Carlos (UFSCar) · São Carlos, SP

INTERNATIONAL EXPERIENCE

Jul 2024	Spanish language immersion program — Spain and Portugal.
Jul 2018	English language immersion program — United States.
Jan 2017	Italian language immersion program — Italy.
Jun 2016	Led EHS audit at International Paper's Augusta plant (USA), including compliance validation against legal and regulatory requirements.
May 2014	EHS audit at International Paper's Eastover and Sumter plants (USA). Completed OSHA 511 — General Industry safety training at the University of South Florida.
Nov 2012	Conducted ISO 14001 implementation readiness assessment at the Eastover plant (USA); prepared and presented findings report in English.
Sep 2012	Safety audit at an International Paper supplier in Bolivia, validating compliance with best practices and regulatory safety requirements.
Jul 2012	Participated in the safety audit process at Georgetown, USA, applying knowledge of OSHA regulations.
Oct 2006	English language immersion at PLI Pacific Language Institute, Vancouver, Canada.

ADDITIONAL QUALIFICATIONS & CERTIFICATIONS

- ▶ Radiation Protection Supervisor — Official license issued by CNEN/ANSN (Brazilian Nuclear and Radiation Safety Authority).

- ▶ Certified Licensed Trainer for Managing Safety Performance Tools for Supervisors and Managers — BALMERT CONSULTING.
- ▶ OSHA 511 — Occupational Safety and Health Standards for General Industry (University of South Florida, USA).
- ▶ NIOSH/OCRA Updated — Ergonomic risk assessment methodology.
- ▶ Italian Language Certificate — B1 level (Università per Stranieri di Siena, Italy).
- ▶ Proficient in Microsoft Office Suite (Word, Excel, PowerPoint), EHS management systems, and digital productivity tools.
